SCHEMAT PODZIAŁU NA OBSZARY A, B, C

The diagram shows a large, irregular field boundary represented by a dashed line. Two dashed lines originate from the left side of the field and extend towards the right, dividing the field into three distinct areas labeled A, B, and C. Area A is the leftmost section, Area B is the central section, and Area C is the rightmost section. The dashed lines represent the boundaries between these areas.
